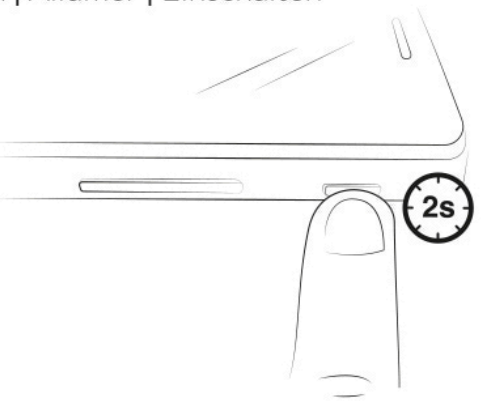
C

Encender

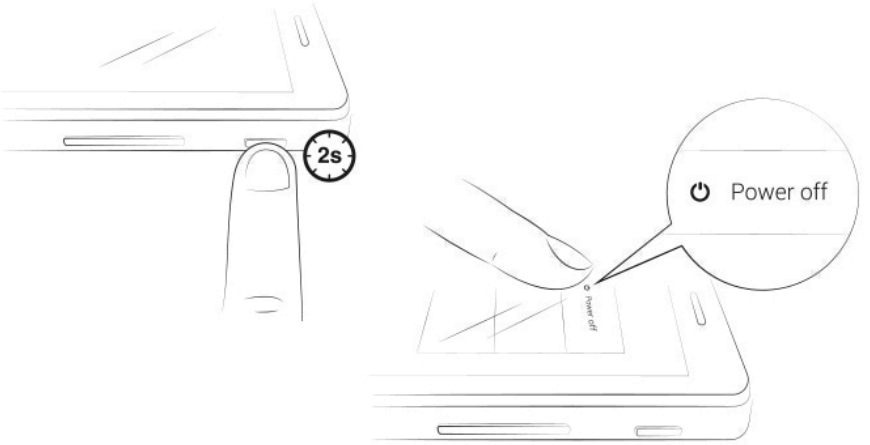
Ligar | Switch on | Allumer | Einschalten



D

Apagar

Desligar | Switch off | Éteindre | Ausschalten



ES **Para apagar el dispositivo mantén pulsado 2 s el botón de encendido/apagado. Si solo lo pulsas un instante, se apagará la pantalla pero no el dispositivo.**

PT Para desligar o dispositivo, mantenha o botão ligar/desligar pressionado durante 2 s. Se pressionar momentaneamente apagará apenas o ecrã mas não o dispositivo.

EN To switch off the device, press and hold down the On/Off button for 2 s. If you only press the button briefly without holding it down, the screen will turn off but the device will remain switched on.

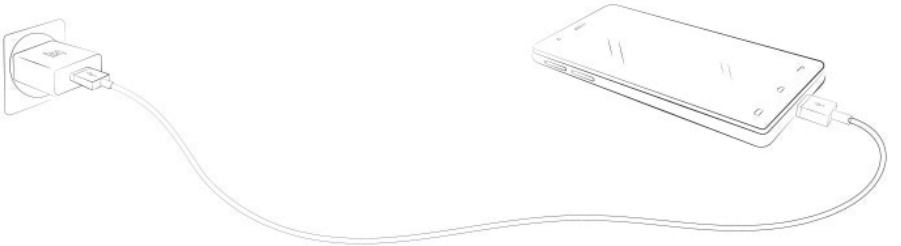
FR Pour éteindre l'appareil, maintenez le bouton marche/arrêt appuyé pendant 2 s. Si vous appuyez seulement un instant, l'écran s'éteindra mais pas l'appareil.

DE Um das Gerät auszuschalten, den Ein/Aus Knopf 2 Sekunden gedrückt halten. Bei einem kürzeren Drücken schaltet sich nur das Display aus, nicht aber das Gerät.

E

Cargar

Carregar | Charge | Charger | Laden



ES **La primera vez que enciendas el dispositivo deja que se agote la batería totalmente. Después realiza una carga completa (3 h aprox.). También puedes cargar la batería conectando tu smartphone a otros dispositivos con el cable USB, pero el tiempo de carga será mayor.**

PT Ao ligar o dispositivo pela primeira vez, deixe esgotar totalmente a bateria. A seguir, realize uma carga completa (3 h aprox.). Também pode carregar a bateria conectando o seu smartphone a outros dispositivos com o cabo USB, mas o tempo de carregamento será superior.

EN When you switch on the device for the first time, allow the battery to fully run down. Then charge it back up to its full capacity (about 3 h). You can also charge this smartphone by connecting it to other devices using the USB cable, however, the charge time may vary significantly.

FR La première fois que vous allumerez votre appareil, laissez la batterie se décharger totalement. Rechargez ensuite la batterie complètement (environ 3 h). Vous pouvez également recharger la batterie en connectant votre smartphone à d'autres appareils au moyen du câble USB, mais le temps de rechargement sera plus long.

DE Wenn du das Gerät zum ersten Mal einschaltest, verwende es bis der Akku vollständig leer ist. Anschließend lade es komplett auf (ca. 3 Stunden).Du kannst den Akku ebenfalls aufladen, indem du das Smartphone mit dem USB-Kabel an andere Geräte anschließt, aber der Ladevorgang dauert so länger.
